NOTES ON HOMEPAGE

- 1. Member name: Links to member profile page
- 2. Video Player: See Video Player component for specs. Also see http://studio.brightcove.com/library/help/ provide_gen_player_info.cfm
- 3. Feature Carousel: Showing 4 at a time. Unlimited number of features, with the ability to order them
- 4. Recent Contributors: People who have just commented or posted, Shows 4-8, sorted by recency
- 5. Comments Toggle: Number reflects the total number of comments that a given post has received, including comments on comments. Links to detail page, anchored
- 6. VoteMark: Clicking to vote AJAXes a request for upping the voted count by one and displays the new number in-line. If you're not logged in it prompts, like the current site. See Component Library Document for full description of functionality.
- 7. 3 Banner Ads between every 3 posts 468x60 - banner 300 x 250 - box ad embedded by 3rd party, no admin necessary
- 8. Links to Most Popular page (with all the site's content) that you can filter by Voted and Commented and sort by This Week, This Month and All Time
